We make a specialty of growing Colorado Evergreens, which have attracted so much attention lately, both in this country and Europe, and have by far the largest stock in cultivation.

Our transplanted Trees are grown much farther apart than is usual, allowing them room to be taken up with perfect roots.

We also make a specialty of growing Evergreen Trees from seeds in very large quantities and Forest Trees for Planters.

GUARANTEE OF GENUINENESS

While we exercise the utmost diligence and care to have our varieties true to name, and hold ourselves in readiness, on proper proof, to replace all trees, etc., that may prove otherwise, or refund the amount paid, it is mutually understood and agreed between the purchaser and ourselves that we shall in no case be liable for any sum greater than the amount originally received for said trees, etc., that prove untrue.

The prices annexed do not include boxes or bales, which we charge for, at cost, as follows:

Boxes (including packing) 12 ft. long by 30-inch ends.....	\$3 50
Boxes (including packing) 12 ft. long by 28-inch ends.....	3 25
Boxes (including packing) 10 ft. long by 30-inch ends.....	3 00
Boxes (including packing) 10 ft. long by 28-inch ends.....	2 75

Forest Trees by Mail

**We Offer the Following Packages by Mail, Postpaid
for \$1.00 per Package**

Our mail packages are made up of the number set opposite each kind, and we **never divide** the packages, nor put more than **one kind** in each \$1.00 package.

Our experience of sending dollar packages of the best Forest and Ornamental Tree Seedlings, postpaid, met with such success and so many encomiums from every part of the country, that we shall in future devote special attention to this business. The postage on each package and the labor of packing them costs nearly 50 cents, so the direct profits of this business are very small; but then, when a man once begins planting trees, he is sure to keep on doing so, and we hope by placing good trees in small quantities, and at cheap rates, within the reach of all, to build up among the farmers in every part of the country the habit of planting every year a hundred or more trees, and of considering the planting a part of their regular farm work.

These trees reach their destination in any part of this country in as good condition as when leaving the nursery. We now send small packages of evergreens by mail to Europe in perfect order, and have sent deciduous trees to the East Indies, 400 miles inland to Calcutta, that all lived and were in leaf ten days from planting.

OFFICE OF

THE ILLINOIS STATE ENTOMOLOGIST

URBANA, ILL., August 29, 1909.

This is to Certify, That the growing Nursery Stock and premises of the Waukegan Nurseries, (R. Douglas' Sons) have been inspected by Hugh Glasgow, a duly appointed inspector of this office, according to the provisions of an *Act to prevent the introduction and spread in Illinois of San Jose Scale and other dangerous insects and contagious diseases of fruits*, approved and in force April 11, 1899, and that no indications have been found of the presence of San Jose Scale, or other dangerous insect or plant disease.

This certificate applies only to the condition of this nursery for the year ending July 27, 1910.

S. A. FORBES,
State Entomologist.
